

10. B Ungarded pits, if any, containing fluids will be fenced until they have be filled.
- C If the proposed well is non-productive, all rehabilitation and/or vegetation requirements of the BLM and the USGS will be complied with and will be accomplished as expeditiously as possible. All pits will be filled leveled within 90 days after abandonment.

11. OTHER INFORMATION

- A Topography: The land surface in the vicinity of the wellsite is a creek bed on one side and cliff on the other. The immediate area of the wellsite is discussed above in paragraph 9B.
- B Flora and Fauna: The vegetation cover consists miscellaneous desert growth. Wildlife was observed, so the wildlife in the area probably includes those typical of semi-arid land. The area is used for cattle grazing.
- C There is a dry creek by the location.
- D There are no inhabited dwellings in the vicinity of the proposed well.
- E Surface Ownership: The wellsite is on federal surface.
- F There is in evidence of any archeological, historical or cultural sites in the area.

12. OPERATOR'S REPRESENTATIVE

- A The field representative responsible for assuring compliance with the approved surface use plan are:

Gliserio "Rod" Rodriguez or Johnny Lopez  
Yates Petroleum Corporation  
207 South 4th Street  
Artesia, New Mexico 88210  
Phone: (505) 746-3558

13. CERTIFICATION.

I hereby certify that I, or persons under my direct supervision, have inspected the proposed drillsite and access route, that I am familiar with the conditions which presently exist; that the statements made in this plan are to the best of my knowledge, true and correct; and, that the work associated with the operations proposed herein will be performed by Yates Petroleum Company and its contractors and subcontractors in conformity with this plan and the terms and conditions under which it is approved.
