17. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work) SEE RULE 1103.

We put 16" casing in this hole and did not cement it. While drilling with the cable tool we kept thinking that we would encounter water so therefore wanted to get through the water zone so that we would not have to set two strings of surface casing. We are planning on getting a rotary rig to this location and at that time the rotary can set the 13 3/8" csg. and then drill on down.

18. I hereby certify that the information above is true and complete to the best of my knowledge and belief.
