

CORINNE GRACE
WHITE BABY
SECTION 16, T24S, R26E
EDDY COUNTY, NEW MEXICO

June 24, 1975 Made trip to Hobbs NM with bit & stem. Had pens and box turned
Rig shut down all day.

June 25, 1975 Have tools back in hole. Ready to try to make some hole again.

June 26, 1975 Made a little bit of hole. But large rocks are falling in
now. I have two of them that I got out of the bails. They
are hanging up the tools again.

June 27, 1975 Made some hole not much. But run rig allday stuff stoping
it at times. Rough digging.

June 28, 1975 Stuff still falling in hole broke a stran in drill line and
have the boiler hung in bottome of hole.

June 29, 1975 Went to church.

June 30, 1975 Got the bailer out of bottom of hole. But still must replace drill
line or splice it.

July 1, 1975 Have been woeking on drill line ect. 2 hrs.

July 2, 1975 Broke down tools and tryed to splice Drill line but borke in too
many places. So put on a new one.

July 3, 1975 2 hrs. no hole.

July 4, 1975 The 4th of july didn't go out today.

July 5, 1975 Drilled; 7 hrs. only made about 2½' to 3' of hole. Slow

July 6, 1975 Went to church.

July 7, 1975 Drilling in hard lime rock. Stuff still falling in
looks like chunks of flint rock.

July 8, 1975 Made about 3' Stuff still falling in hole. The tools hung-up
coming out, of hole Burned all four of the vluits up.

July 9, 1975 2 hrs. didn't get the belts on

July 10, 1975 Changed V pullie on jack shaft bought new belts for same
ready to work on hole.

July 11, 1975 Didn't get much done got rained out 2 hrs.

July 12, 1975 Made about 4' of hole. Still in hard stuff, broke on side
of drilling Jars.
