1975

some more work on the reamer.

D. L. E.
ARTESIA, OFFICE

March 3, 1975	Run tools for a while then cleaned out and had for a while. Had to weld on extra iron on bit, to be sure it means the hole good and round.
March 4, 1975	Will be cleaning out and reaming hole to be able to set 16" pipe.
March 5, 1975	Have been running and cleaning out hole worked 6 hrs..
March 6, 1975	Have been drilling on hole. Made a run up in pipe 18" and hung up tools in a flat place in casing tools hung up in big pipe now.
March 7, 1975	Didn't work. Are drill today.
March 8, 1975	Have had tools hung up for a while today. But got loose and are reaming out hole now for the 16" pipe.
March 9, 1975	Worked 4 hrs. today, tools only hung up once. Reamed out a lot of hole.
March 10, 1975	June was sick, took her to Doctor didn't work at all on well.
March 11, 1975	Made a lot of hole reaming. But tools hung up and broke cable fished for tools caught them three times, but didn't get them out today.
March 12, 1975	Have been fishing for tools all morning, caught them and brought them out about 1:10 p.m. today. Worked 5 hrs. reamed out.
March 13, 1975	Back drilling again tools falling pretty good. Stuff still slipping off and rocks falling in on tools. Worked 9 hours today.
March 14, 1975	Didn't measure but should be back close to 270' still rocks falling in
March 15, 1975	Worked 2 hours, broke the jars shut down the rest of the day.
March 16, 1975	Didn't work today on well. Went after tools.
March 17, 1975	Worked 4 hours.
March 18, 1975	Worked 8 hours welding on jars and turning up motor trying to get out of hole.
March 19, 1975	Worked on jars, motor, rig, ect. Worked 8 hours.
March 20, 1975	Had Bryon Stork out on job. He worked on power plant. No charge today to M.P. Grace and CO.
March 21, 1975	Worked all day. Cleaned out more hole didn't measure out.
March 22, 1975	Didn't work today cracked the big bit must weld it up.
March 23, 1975	Didn't work on well Sunday.
March 24, 1975	Work on tools set.
