12. Following the completion of the operations, clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work, SEE RULE 1103.

As indicated by the attached xerox copy of packer leakage chart, there appears to be communication between the Strawn & Morrow zones. Therefore, it is our intent to pull tubing & pressure - test it, inspect packer & redress or replace it, go back in hole & rerun packer leakage test.

Work will commence as quickly as a unit becomes available. Your office will be notified 24 hours in advance of any work performed.

13. I hereby certify that the information above is true and complete to the best of my knowledge and belief.
