17. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work) SEE RULE 1103.

Well originally completed as a Delaware oil well in single well pool (Brynes Tank Delaware oil), from perfs 4781-90. The oil zone was later temp. abnd. by setting a bridge plug @ 4620', then recompleted as a Delaware gas well (Brynes Tank Middle Delaware Gas Oil) from perf. 4247-56, where it is presently pumping 1 to 2 BOPD w/gas TSTM.

Now propose to pull rods & tbg., retrieve the bridge plug @ 4620' & combine both Delaware zones (4247-56 & 4781-90) and produce both zones (as an oil well) on a pump. Work to begin as soon as possible.

18. I hereby certify that the information above is true and complete to the best of my knowledge and belief.
