Re: Robinia Draw Unit
#1-K, 7-23-24
Eddy County, N. M.

Gentlemen:

We hereby acknowledge receipt of Completion Forms 9-330 and C-122 on the subject well.

According to our records, said well is located within one mile of the Bandana Point Penn Gas Pool which was created by Order R-1559 in December 1959; therefore, the spacing is on 160 acres in accordance with Rule 104.

Please submit Form C-102 Dedicating the SW/4 and make application for a Non-Standard Proration Unit or for special rules for the above pool including a provision for 320 acre drilling and proration units.

Further, the Non-Standard Location and Non Standard Proration Unit (for 320 acres) will also require approval prior to producing the well.

If you have any questions concerning this matter, please feel free to call upon me.

Sincerely yours,

W. A. Gressett
Supervisor, District II
