ARTESIAN OFFICE

Request allowable increase

Requet allowable interest

No well will be assigned an allowable greater than the amount of oil produced on the official test.

During 30-month ratio test, each well shall be produced at a rate not exceeding the top well allowable for the pool in which well is located by more than 25 percent. Operator is encouraged to take advantage of this 25 percent tolerance in order that well can be assigned increased allowable when authorized by the Division.

Gas volumes must be reported in MCF measured at a pressure base of 15.075 psia and a temperature of 60° F. Specific gravity base will be 0.60.

Report casing pressure in lieu of tubing pressure for any well producing through casing.

Mail original and one copy of this report to the district office of the New Mexico Oil Conservation Division (address same with Rule 33) and appropriate pool office.

I hereby certify that the above information is true and complete to the best of my knowledge and belief.
