17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.) \*

Our original application to drill this well, dated 6-5-75, spotted the well location 1650' FN and 1650' FW Lines, Sec. 22, T-24-S, R-26-E, Eddy County, N.M. This particular site located the well in a low spot that may have caused land erosion. Consequently, the BLM requested that we move the well site 250' North as indicated on the attached well location and acreage dedication plat. Attached also are copies of letters that were mailed to offset lease owners, in which we have requested their approval of this well location change.

18. I hereby certify that the foregoing is true and correct
