Gentlemen:

Re: Application for Permit to Drill
Colonia "A" No. 1, Eddy County,
New Mexico

Cities Service Oil Company herein applies for a permit to drill the Colonia "A" No. 1 well, 1650 feet FSL and 1980 feet FWL, Section 18-22S-27E, Eddy County, New Mexico.

Subject well is located in the City of Carlsbad, New Mexico. The proposed location does not comply with New Mexico Oil Conservation Commission statewide rules for 320 acre spacing and was moved 330 feet south from a summer use baseball field to avoid curiosity seekers. Approval for this unorthodox location was granted by the NMOCC Order R-5024.

In support of this application, the following information is submitted:

1. Form C-101, Application for Permit to Drill.
2. Form C-102, Well Location and Acreage Dedication Plat.
3. Portion of Eddy County map showing location of proposed drilling site in relation to the City of Carlsbad and surrounding area.
4. Vicinity map showing location with respect to property lines.
5. Blowout preventer diagram showing arrangement and components of BOP stack.
6. Schematic diagram showing hook-up of BOP's, choke manifold and mud/gas separator.
7. Schematic diagram of proposed hole size, casing program, mud program and cementing program.
8. Summary of mud program.
9. Plat of location layout showing land area necessary for the drilling pad, mud tanks and reserve pit.
