Attention: Mr. Bill Grissitt

Dear Bill:

Attached are the C-124's for four of Delta Drilling Company's South Carlsbad Morrow wells.

When we were running the BHP bomb in the XL, the bomb hung up and pulled the wire into. After two days of wireline fishing, we are unable to pull the bomb free. The well is back on production, but I was not able to retrieve the bomb to obtain the BHP information for the C-124.

I would like to ask for an exemption from the C-124 test until such time this well is reworked.

Yours truly,

J. E. Brusenhan
Operations Manager
