Re: CNB
#1-L, 11-24-28
Eddy County, N. M.

Gentlemen:

We are returning the enclosed Forms C-101 and 102 on the subject well for clarification, corrections and additional information.

Said well is located within one mile of the Malaga Morrow Gas Pool; therefore, it should be shown as Undesignated Malaga Morrow.

Is the 5" to be a liner or are all strings to be complete strings? Further, do you feel that 9800' of 9-5/8" is required for well control or would setting this string in the top of the Bone Springs be adequate?

On Form C-102, when more than one lease is dedicated to a well, outline each and identify the ownership thereof (both as to working interest and royalty).

Under #3, you show unitization as type of lease consolidation; I am wondering if this might not be communitization.
