

THE EASTLAND OIL COMPANY
UNION - FEDERAL WELL NO. 1
SURFACE USE AND OPERATIONS PLAN (Cont'd - Page Two)

10. Plans for restoration of the surface: The ground is relatively flat with caliche at the surface. The only vegetation is scrub mesquite. After completion or P&A of the well, the surface will be leveled as soon as the pits are dry (approximately 60 days). All waste will be covered.

OTHER INFORMATION:

11. The surface ownership is Federal and the only surface use is live-stock grazing. There is limited vegetation consisting of scrub mesquite. The nearest water source is the Pecos River approximately 1/2 mile south of the location. There are no steep hillsides or gullies.
12. Lessee's or operator's representative -
George D. Neal
704 Western United Life Building
Midland, Texas 79701
Telephone: A/C 915-683-6293
13. Certification -
I hereby certify that I, or persons under my direct supervision, have inspected the proposed drillsite and access route; that I am familiar with the conditions which presently exist; that the statements made in this plan are, to the best of my knowledge, true and correct; and, that the work associated with the operations proposed herein will be performed by The Eastland Oil Company and its contractors and subcontractors in conformity with this plan and the terms and conditions under which it is approved.
