

7/7/78 Const Co. was
talking about developing this
area. They said they would
fill the cellar, put a cap on
this well + go on. I told
them that it might be better
to let Belco plug this well.

I told Belco pumper. Don
Rutherford w/ Belco in Lovington
called Fri. night + said he
would check w/ his people
on what they were going
to do w/ this well.
