17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

Well was spudded on 5-27-77 with 15' of 16" reamed hole to run 13 3/8" casing. Thereafter hole was 8" diameter to 117' depth when drilling operation was stopped by order of the U.S.G.S.-Artesia on 6-5-77.

It is proposed to plug and abandon this well. The hole will be filled up with the cuttings and topped with a 20' cement plug. A dry hole marker will be installed to identify well.

No fluid was encountered during drilling.
