Re: Carlsbad "7" #1  
690' FWL & 760' FSL,  
Sec. 7, T-22-S, R 27-E,  
Eddy County, New Mexico

Dear Sir,

With reference to our telephone conversation this date pertaining to our casing program for the caption well, this is to advise that in the event we initiate our contingency plan to run 7-5/8" casing, we plan to cement this casing with 300 sx. of Class "H". The estimated Top of cement outside of the casing will be at 6500'. We are also enclosing copies of our Blowout Preventer sketch which we failed to enclose when we submitted our Application to Drill. Also, we plan to use the rig that is now completing our Carlsbad "12" #1 on this location.

Anything done to expedite the approval of this application will be appreciated.

Yours very truly,  
C & K Petroleum, Inc.
