(NOTE: Report results of multiple completion on Well Completion or Recompletion Report and Log form.)

17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

Plan to temporarily abandon the presently producing Strawn zone 9714-22 by pulling pkr. (set @ 9599') and tbg., then go back in hole with tbg. and latch on to pkr. set @ 9862', pull blanking plug and produce well through Strawn perfs. (originally perf. & treated) 10050 - 70, 10009 - 13, & 9926-46. Propose to leave perfs. 9714-22 open on casing side for possible additional gas, probably by compressor, at a future date. Work to begin as soon as workover unit is available.

18. I hereby certify that the foregoing is true and correct
