17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)\*

Our application for permit to drill this well was approved by the USGS 10-25-77 with the stipulation that the permit would be rescinded if operations were not commenced by 1-25-78. It now appears that we will not have a drilling rig available by the 1-25-78 date. Consequently, we are requesting that we be granted a 90 day extension to our approved application.
