Eddy County, NM

Dear Sir:

I am returning your copies of the C-103 due to inadequate information on your casing breakdown. We need for you to show the weight, grade and amount of each casing run.

I would also like for you to show if you had a good cement bond from 1,650' to 10,800', or if you have some voids.

If you have any questions concerning this matter, please feel free to call upon me.

Sincerely yours,

Mike B. Williams
Oil & Gas Inspector
