Re: Eddy "GR" State #1 - E-16-23-38 - S. Culebra Bone Springs

Gentlemen:

Attached is a copy of letter received from you concerning the above well. The C-103 and C-104 mentioned in the letter was submitted to your office 8-24-82, pertaining to work performed 6-30-82 through 8-4-82. At the time the forms were submitted, this well was producing; however, it only produced 88 barrels of oil and was then closed in 12-9-82.

When it was discovered that the above mentioned forms had never been approved and returned to us in August of 1983, we then called and requested an allowable assignment in order to sell the stock on hand. The well is still currently closed in.

If further explanation is required, please advise.

Yours very truly,

R. C. Anderson
