Re: Plugging Report  
Walterscheid No. 1 Well  
A-21-22S-27E

G. C. C.  
General Office

Gentlemen:

We received a plugging inspection report dated September 6, 1978, made by Mr. Mike Stubblefield of your office indicating that pits had not been filled and levelled and that the location had not been levelled as nearly as possible to original top ground contours.

The land owner, Mr. Gene Walterscheid, has asked us to leave the location with the pits and the location in tact. We submit for your information and approval a copy of a release form signed by Mr. Walterscheid and his wife and an affidavit signed by the Walterscheids indicating their desire to leave the property in its present condition.

The well itself has been plugged and abandoned in compliance with commission requirements, and a marker has been installed. We ask your approval of our form C-103 in light of the land owner's request and affidavit.

Yours very truly,

C & K PETROLEUM, INC.

A handwritten signature in cursive script that reads 'G. C. Tompson'.

G. C. Tompson,
