13. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

Bass Enterprises Production Company requests approval of TA status for this well. A casing integrity test was run on September 12, 1997.

The well is currently TA'd and is being evaluated to be converted to a SWD or injection well. The work was not done in the last year mainly due to low oil prices and poor economics at the time.

We request that: TA status be granted for 12 months.
