Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work) SEE RULE 1103.

The above mentioned well was closed in July 3, 1980, by request from El Paso Natural Gas Company. Their line was pressuring up due to market over long weekend on the West Coast. We opened well back up after the holiday and was unable to get production back. Swabbed well, and not able to recover production - acidized well by Western Company 7/23/80 with 3500 gals of 7 1/2% acid in attempt to clean up. Swabb load back. Well is not commercial. Plans are to plug back to Atoka zone.

I hereby certify that the information above is true and complete to the best of my knowledge and belief.

Signed W. A. Gressett

Field Superintendent
