Re: Amoco 22 State
#2-G-22-23-27
Eddy County, NM

Gentlemen:

We have correlated the logs on the subject well with the Industry Committee's cross sections and, according to our Geologist, the well is completed in the Atoka, not in the Strawn as reported.

His tops are as follows: Wolfcamp 8998, Penn. 10,480, Strawn 10,632, Atoka 10,940, Morrow Lime 11,549 and Morrow Clastics 11,769.

If you have any questions concerning this matter, feel free to contact me.

Sincerely,

W. A. Gressett
Supervisor, District II
