Re: Big Eddy Unit
#71-8, 7-22-29
Eddy County, NM

Gentlemen:

In regards to the aforementioned well, this department plans to show that the well is completed in the Atoka. The tops that I picked are as follows:

Penn.	11008
Strawn	11175
Atoka	11480
L. Atoka Datum	11875
Morrow LS (Top of the Morrow)	12200
Morrow Clastics	12408

This evaluation was reached by cross-correlation between C & D cross sections, prepared for this division by an industry advisory committee on vertical nomenclature. These cross-sections were prepared by group consensus to aide in correlative discrepancies.

If you have any questions concerning this matter, please feel free to contact me at this office.

Sincerely yours,

Geologist, District II
