If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

Bass Enterprises requests approval of TA status extension for this well. A casing integrity test was run on January 24, 1996 (witnessed by Cathy Queen).

Bass is evaluating re-completion possibilities in the Brushy Canyon formation. Work is expected to start in late 1998 depending on results of geological mapping and studies being conducted in this area.

Based on the successful casing integrity test (no leak off), we request the TA status be extended for another 12 months.

APPROVED FOR 12 MONTH PERIOD
