

Aristida sp., and *Muhlenbergia porteri*.

Cultural Resources

During the course of this reconnaissance, an isolated manifestation (IM) of man's past activities was observed. Owing to the paucity of remains and singularity of type, these cultural material can be attributed to en passant activities.

IM: Located near the northeast corner of the proposed work area, two chert primary decortication flakes and one quartzite primary decortication flake were observed.

Location: NE $\frac{1}{4}$ NW $\frac{1}{4}$ SE $\frac{1}{4}$, Section 34, T24S, R28E, NMPM, Eddy County, NM

UTM: Zone 13, E587,450; N3,559,750

Map Reference: USGS MALAGA QUADRANGLE, 15 Minute Series, 1945.

Recommendations

NMAS recommends clearance for AMOCO PRODUCTION COMPANY's proposed Federal A-1 Comm. Well No. 1 and its access road and suggests that work-related activities proceed in accordance with company plans. Clearance, of course, is granted by the Bureau of Land Management.

Borrow Pit, Section 3, T23S, R35E,
Lea County, New Mexico

Location

The existing borrow pit is situated in the?
