Oil Conservation Division - District II  
P & A Approval - Three Wells  
Page 3

From this step we would then set a 100' shoe plug at 2,365-2,465', cut the 7-5/8"-inch just above, at approximately 2,000', and set a 350' "freshwater zone" plug and 10 sack surface plug.

Please consider this proposal for the Lakey #1 and call me at (303) 850-6303 or 1-800-388-4833 to discuss any of the aspects of these procedures.

Sincerely,

HALLWOOD PETROLEUM, INC.
