RECEIVED

MAY 20 1980

U.S. GEOLOGICAL SURVEY
ARTESIA, NEW MEXICO

1. EXISTING ROADS - Detailed map showing drillsite location in relation to a town or known point and all existing roads within one mile of the wellsite are shown on Exhibit "A".

From Jal, New Mexico, go west 49 miles on Highway 128 and turn south and west on caliche road and go ten miles to the location.

2. PLANNED ROADS - It is planned to construct 2,000 feet of new road and improve approximately one mile of existing road as shown on Exhibit "A".

- (1) Width of the new road to be constructed will be approximately 12 feet.
- (2) No grade change will be made in any part of the existing access road or the new road to be constructed in excess of 5 percent.
- (3) No turnouts will be necessary.
- (4) No special drainage features will be necessary.
- (5) No culverts will be required.
- (6) Caliche will be used where necessary.
- (7) No cattleguards will be required.
- (8) The proposed new road is center-line flagged.

3. LOCATION OF EXISTING WELLS WITHIN ONE MILE RADIUS -

- (1) Water wells - There are no known water wells within 1 mile of the drillsite.
- (2) Abandoned wells - Dry holes are shown on Exhibit "C" within 1 mile of the drillsite.
- (3) Temporarily abandoned wells - None
- (4) Disposal wells - None
- (5) Drilling wells - None
- (6) Producing wells - Shown on Exhibit "C"
