Re: Bird Com.  
#1-G-12-23-27  
Eddy County, NM

Gentlemen:

We are returning the enclosed Forms C-102, 104, 105 and deviation tests on the subject well for corrections and additional information.

According to our Geologist, the tops are as follows: Wolfcamp-9166, Penn.-10,556, Strawn-10709, Atoka-11019, Morrow-11658, Morrow Clastics-11843. According to our tops, the well is completed in the Atoka and not the Strawn as reported. Please make the necessary corrections on Forms C-102, 104 and 105.

Also, on Form C-105, show a detail of the perforations and show the Formation Record from surface to total depth. Further, you are showing the 2 7/8" tubing set at 10,366 and this will require an exception to Rule 107(d). In addition, the deviation tests must be sworn to and notarized in accordance with Rule 111.

If you have any questions concerning this matter, please feel free to contact me.

Sincerely,

A handwritten signature in cursive script, reading "W. A. Gressett".

W. A. Gressett  
Supervisor, District II
