In Re: Loving 1 State, Well No. 1B
Section 1, T24S, R27E
Eddy County, New Mexico

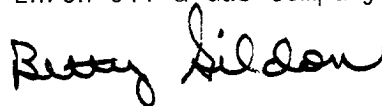

Dear Mr. Williams:

Enron Oil & Gas Company is requesting exempt status from the annual shut-in pressure report (Form C-125) for the above named well due to the low flowing pressure combined with the excessive amount of water the well produces.

This request is made to prevent loading up of the Morrow formation and the expense of bringing the well back on.

Very truly yours,

Enron Oil & Gas Company
