Instructions

General: This form is designed for submitting proposals to perform certain well operations, and reports of such operations, when completed, as indicated, on Federal and Indian lands, pursuant to applicable Federal law and regulations, and, if approved or accepted by any State, pursuant to applicable State law and regulations. Any necessary special instructions concerning the use of this form and the nature of reports to be submitted, particularly with regard to local, area, or regional procedures and practices, either are shown below or will be issued by, or may be obtained from, the local Federal and/or State office.

Item 4: If there are to applicable State requirements, locations on Federal or Indian land should be described in accordance with Federal requirements. Consult local State or Federal offices for specific instructions.

Item 17: Proposals to abandon a well and subsequent reports of abandonment should specify such special factors as are required by local Federal and/or State law and regulations, in addition to the requirements herein. Reports should include reasons for the abandonment; data on any former or present productive zones or other zones with present or former fluid contents; and, should be completed, as follows: (a) the type, size, and location of the well; (b) the depth of the cement, if cemented; (c) the type of plug or cement used; (d) the type of plug or cement used; (e) the method of setting, tier or tubing pulled and the depth to top of any hole in the lower method of closing top of well; and (f) any other information required by local, area, or regional procedures and practices.
