(NOTE: Report results of multiple completion on Well Completion or Recompletion Report and Log form.)

17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

We respectfully request approval to sell up to 500 barrels of test oil out of frac tanks. Our testing operations should be complete by 4-1-92. After testing and lifting of produced oil and water, frac tanks will be removed from location. The location will then be cleaned in preparation for a permanent tank battery installation and a pumping unit. The tank battery will be located on the east side of the current pad. A pumping unit, probably a 320 size, will be installed on the well and will be powered by a natural gas engine.

A NMOC Form C-104 is attached for your review. A copy is being sent to the NMOC in Artesia for their approval. A well completion report is forthcoming.

Your office will be notified prior to any oil liftings, and a Sundry Notice submitted stating the volume sold.

18. I hereby certify that the foregoing is true and correct
