

Well Name: Cass Draw No. 1  
API Number: 30 015 24061

Norman L. Stevens, Jr., of Read & Stevens, Inc., first being duly sworn, under oath, hereby states:

That he has made, or caused to be made, pursuant to his instructions, a diligent search of all records (including but not limited to production, severance tax, and royalty payment records) which are reasonably available and contain information relevant to the determination of eligibility.

A search was made of the company records in Roswell, New Mexico which contain gas contract files, well drilling permits, completion reports and other reports required by the appropriate regulatory agency. Other records which may contain information relevant to the determination, but which are not reasonably available, are state tax reports, USGS and state production records, royalty records and records of the gas purchasers in the area.

That on the basis of the results of this search and examination, he has concluded that to the best of his information, knowledge and belief, there is no marker well within 2.5 miles of the well for which he seeks a determination; and

That he has no knowledge of any other information not described in the application which is inconsistent with his conclusion.

READ & STEVENS, INC.
