13. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

The above captioned well is in a shut-in status because it is a Delaware well on the same 40 acre proration unit as another producing Delaware well the Pure Gold D #17. Pogo still has this well in a ready condition and will pump it later as it deems necessary to enhance the production on this 40 acre proration unit. Since this well is still capable of producing in paying quantities, Pogo request that the BLM allow for the continuance of the shut-in status.
