Re: Faulk 32 Com #1-J
32-22S-28E

Gentlemen:

We are in receipt of forms C-103, C-104 and C-105 on the above captioned well, where you re-completed back to the Atoka formation from the Morrow formation.

You apparently have plugged back by the use of a packer and plug set in the packer. Unless your intentions are to dual this well, this is an unsatisfactory plug back.

The packer should be covered with at least 35' of cement to preclude any problems of leaking.

Please inform us of your intention in this matter.

Sincerely,

A handwritten signature in cursive script that reads "Leslie A. Clements".

Leslie A. Clements
Supervisor District II
