Gentlemen:

Reference is made to your letter dated July 9, 1993, which was received by this office July 15, 1993, regarding the status of the captioned well and to a recent telephone conversation between the undersigned and Mr. Lara.

As discussed and as previously advised by letter dated May 8, 1991, the subject well is not temporarily abandoned (TA) as stated, but is a gas well currently shut-in due to a lack of an available gas market. We expect that this well will remain shut-in until such time as Pogo can procure a buyer for the gas from this well. Please amend your records accordingly.

Further, as requested, Pogo will perform a casing integrity test on such well in the near future.

If you should have any questions, please contact the undersigned.

Very truly yours,

POGO PRODUCING COMPANY
