White City Penn Pool

Gentlemen;

Please file a form C-103 to clarify the perforations in this well. Your C-105, Completion Report, indicates more additional perforations open than you show on your C-104, Request for Allowable. We have no record of any being squeezed off.

This information is needed prior to approval of your C-104.

Further your tubing depth is shown at 10,630' and if your top of perforations is at 10,961' this would be greater than the 250' that Division Rule 107 allows, and you should apply to our Santa Fe Office for a tubing exception approval.

Sincerely,

  
Leslie A. Clements  
Supervisor, District II

LAC/tm
