17. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work) SEE RULE 1103.

Original well design called for 9 5/8" 40.0 ppf N80 casing set at 9950' with a 5 1/2" production casing string. The casing actually run in the well is 9 5/8" 43.50#/ft P-110 casing which has a burst rating of 8700 psi.

We are requesting permission to change the production casing from a 5 1/2" long string to a 5 1/2" liner because of the higher grade and weight of 9 5/8" casing used.

18. I hereby certify that the information above is true and complete to the best of my knowledge and belief.
