Re: Skeen #1 Well lying in
Section 28-T22S-R27E,
Eddy Co., New Mexico

Dear Mr. Gum,

Enclosed I am providing you with copies of the C-101 and C-102 forms for the captioned Skeen #1 Well. Indicate are that these forms are already on file with the Oil Conservation Division.

Apparently, when Bird Creek Resources, Inc. acquired operations on numerous New Mexico wells in a short period of time, the paperwork on this well was "in mid-stream" and never completely filed.

By copy of this letter I am sending Mr. Wade Alexander a copy of the C-101 and C-102 completed/filed forms. Because he is the most knowledgeable person concerning this well, I am also sending him a set of all forms (in particular the C-103, C-104, C-105, et al forms that need to be filed) so that he can complete the forms and bring the filings for the captioned well current.

Please accept our apologies for this oversight. Thank you for taking the time to view the wellsite with Wade and in helping to get us on the road to correct this matter. Your kind consideration is much appreciated. After your receipt of the remainder of these completed forms, please let either Wade or myself know if anything further will be needed.

I have received copies of the (red book) Hobbs and Artesia Oil Proration Schedules and the (yellow book) Southeast Gas Proration Schedule. We are not listed in any of these, which would account for why we were not included on the mailing list. (Should we be listed?)

Very truly yours,

William S. (Bill) Michalak
