Abraham Ellis Goldminz, M.D.  
616 West Pierce Street  
Carlsbad, New Mexico 88220

Dear Dr. Goldminz:

Enclosed is a portion of the information requested in your letter of January 10, 1986.

The enclosed Form C-104 and Notice of Gas Connection indicate production from the Henry Well No. 2-I, Section 22, Township 22 South, Range 27 East, Eddy County, began on or about August 22, 1985. This is confirmed by monthly production reports on Form C-115.

Some information cannot be supplied for one reason or another. No Form C-108, C-131-A or C-133 would be filed for this well. A Form C-126 may or may not have been filed and only an extensive search of the records of our Artesia district office would reveal this. This form covers the movement and sale of load oil and should be of little or no consequence on this well. The process of checking and duplicating Form C-111 and Form C-112, Monthly Gas and Oil Transporter's Reports, respectively, is somewhat complicated and time consuming and was not done. I did check the most recent monthly reports and they each matched the information on the operator's C-115. November is the latest production report available.

All of these reports are available for your inspection in our Artesia district office. As our staff size is limited here and in that office we are unable to fulfill all requests

SANTA FE ENERGY Co.
