RE: Merland A #2 ✓  
Section 19-T22S-R27E  
South Carlsbad Delaware Field  
Eddy County, New Mexico

Dear Ms. Carpenter:

A NMOCD potential test was run on the Merland A #2 on November 21, 1985 ( 65 BOPD, 354 BWPD, GOR 369). The 20-30 day completion test for this well was scheduled for December 20, 1985. This test was not run because the Merland A #2 was shut-in on December 18, 1985 due to complaints from people living nearby the well of H<sub>2</sub>S fumes.

The Merland A #2 will be put back on production in mid-January when the production facilities are completed. The NMOCD will be contacted at that time and another test will be scheduled.

Sincerely,

Rebecca A. Egg  
Petroleum Engineer  
Southwest Region
