

ITEM VII

OPERATIONAL DATA

- (1). Average expected injection rate: 1200 BWPD; maximum anticipated rate: 3000 BWPD
- (2). Closed system
- (3). Estimated average injection pressure: 500 psi.
Estimated maximum pressure: 880 psi.
- (4). Source of injection water: Produced water from nearby Pogo operated leases
Analysis of waters attached. Exhibit I
- (5). Analysis of injection zone water attached. Exhibit 2
Data source: Corbin Delaware; 31-17-33
