(Note: Report results of multiple completion on Well Completion or Recompletion Report and Log form.)

13. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)\*

Pogo request permission to install power lines as per attached survey. This is to provide power for transferring produced water from the Sand Dunes 34 #2 Battery and Calmon #2 Battery to the Calmon #5 SWD.

There is a road going from the Calmon #2 Battery to the Calmon #5 SWD. A portion of the power line system (the red dash line) will be installed following the road. Pogo request permission to install this section immediately in order to get the SWD system running.

The remaining wells on this lease and in Pogo's Sand Dunes field are being surveyed at this time and will be submitted at a later date.

14. I hereby certify that the foregoing is true and correct
