

W Name: Fort 7 Com. #1
County: Eddy
State: New Mexico

APPLICATION PURSUANT TO
SECTION 103(c) OF
THE NATURAL GAS POLICY ACT OF 1978

AFFIDAVIT

STATE OF Texas COUNTY OF Harris

BEFORE ME, the undersigned authority, duly commissioned and qualified within and for the State and County aforesaid, personally came and appeared D. W. Deal, who being by me first duly sworn, deposed and said:

That he is the Manager, Marketing Administration, for Enron Oil & Gas Company, successor in interest through merger to HNG Oil Company, the applicant for the well as described heretofore in this application, and, in that capacity, he is requesting the State of New Mexico, Oil Conservation Division to determine the eligibility of said well for wellhead pricing purposes pursuant to the rules and regulations of the State of New Mexico, Oil Conservation Division and the Federal Energy Regulatory Commission and to the NGPA.

That to the best of his information and knowledge the surface drilling of the well for which he seeks a determination was begun after February 18, 1977, and that the well satisfies any applicable Federal or State well-spacing requirements.

He further states that the application is made pursuant to 18 CFR 274.204(d) and that

a. The well is not within a State law proration unit:

- (1) Which was in existence at the time the surface drilling of the well began; and
- (2) Which was applicable to the reservoir from which natural gas is produced; and
- (3) Which applied to any other well which either produced natural gas in commercial quantities or the surface drilling of which began before February 19, 1977, and was thereafter capable of producing natural gas in commercial quantities.

(For applications submitted pursuant to 18 CFR 274.204(f) for wells added within an existing proration unit, the provisions of "a" above are not appropriate and therefore are not a part of the sworn statement.)

That he has concluded that to the best of his information and knowledge the natural gas for which he seeks a determination is produced from a new onshore production well; and that he has no knowledge of any other information not described in the application which is inconsistent with this conclusion.
