Hallwood Petroleum, Inc. recompleted this well in the First Bone Spring Zone at 7522-7532' in October 1993 as described in the attached report. We apologize for the delay in this subsequent report but while reviewing our files this was an oversight. The originally approved (10/1/93) Delaware recompletion (6314-6670') was not performed and has been postponed. If and when we elect to test the uphole Delaware Zones, we will file another "Notice of Intent."
