13. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

We are requesting an additional 180 days to re-enter and rework the above well.

We have a minimum of six weeks work to be performed on three wells in Campbell Co., WY, and are currently in the process of re-working these wells. As in the oil business, these projects are apt to require additional unplanned time before they are completed.

If additional information is required, please contact David Conn, at (307) 687-0227.
