a i sinah

No intervals will be cored. One drill stem test may be conducted in the Brushy Canyon pay. Surveys to be run include GR-CAL-CNL-FDC (w/PE), GR-CAL-MSFL-DLL, and GR-CAL-BHC-Sonic.

No abnormal pressures, temperatures or hazardous gases are anticipated to be encountered in this well.

BOP will be installed after surface casing is set. BOP will be tested each time it is installed on a casing string and operated at least once each 24-hour period during drilling.

SURFACE USE AND OPERATIONS PLAN

<u>FOR</u>

TEXACO PRODUCING INC. <u>FEDERAL NEFF "13" NO. 3</u> 66<u>0' FSL & 1980' FEL, SEC. 13, T-22-S, R-31-E</u> <u>EDDY COUNTY, NEW MEXICO</u>

LOCATED: 30 air miles East Southeast of Carlsbad, New Mexico

FEDERAL LEASE NUMBER: NM 25876

LEASE ISSUED: August 1, 1975

ACRES IN LEASE: 960 Acres

RECORD LEASEE: Texaco Producing Inc.

SURFACE OWNERSHIP: Federal

<u>POOL</u>: Brushy Canyon

<u>POOL RULES</u>: Field Rules are for no wells to be located closer than 330' to any quarter-quarter section, to be 330' from the Lease line, and 330' from the nearest well.

EXHIBITS: A. Road Map (Topographic)

- B. Drilling Rig Layout
- C. Topographic Map

1. EXISTING ROADS:

A. Exhibit "A" is a portion of a County Road map showing the proposed well site and existing roads in the area. Point "A" is the junction of State Highway 180 and Lea County Road C-29. Said Point "A" is 31.3 miles east along State Highway 180 from Carlsbad, New Mexico. Exhibit "A" is color coded to show the local roads to be used for access to Texaco Producing Inc. Federal NEFF "13" lease in Section 13, T-22-S, R-31-E. Exhibit "C" is color coded to show existing Resource Roads and proposed Resource Roads. Point "B" shows the junction of said County Road C-29 with an existing Resource Road near the middle of Section 13 which will be used for 0.3 miles to Point "D" being a point in the South edge of Pogo Pet. NEFF "13" No.1 well pad. To reach the well from point "A" proceed South on said Lea County Road C-29 11.8 miles to Point "D". From point "B" turn East and proceed 0.25 miles to point "D". From point "D" a new Resource Road will be constructed South 1120' to the Northwest corner of the calichi pad around the new well site.

2. PLANNED ACCESS ROAD:

A. <u>Length and Width</u>: The new road will be 14 feet wide and 2545 feet long, and is shown on Exhibit "C" by color coding.

B. <u>Surfacing Material</u>: Caliche. Watered, compacted, and graded.

C. <u>Maximum Grade</u>: Less than one percent.

D. <u>Turnouts</u>: None required.

E. <u>Drainage Design</u>: The new road will be crowned with drainage to both sides.

F. <u>Culverts</u>: None required.

G. Cuts and Fills: None necessary.

H. Gates and Cattle Guards: None will be needed.

3. LOCATION OF EXISTING WELLS:

A. Existing wells in the immediate area are shown on Exhibit "C".

4. LOCATION OF EXISTING AND/OR PROPOSED FACILITIES:

A. Production from this well will be taken to an existing Tank Battery (on the NEFF "13" No.2 well site) in the SE/4 of the NE/4 of said Section 13 by a flowline to be layed along the Resource Roads.

B. No electricity will be used.

5. LOCATION AND TYPE OF WATER SUPPLY:

A. It is not contemplated that a water well will be drilled. Water necessary for drilling operations will be purchased and trucked to the well site, or will be moved to the well site by temporary pipeline laid on the ground alongside existing and proposed roads.

6. SOURCE OF CONSTRUCTION MATERIALS:

A. Caliche needed for the road and well pad will be taken from an existing pit in the SW/4 NW/4 of Section 1, T-23-S, R-

31-E, Eddy County, New Mexico, and will be moved to the well site using existing local roads. Location of this caliche pit and road is shown on Exhibit "A". This pit is on Federal Land and has been Archaeologically cleared.

7. METHODS OF HANDLING WATER DISPOSAL:

A. Drill cuttings will be disposed of in the drilling pits.

B. Drilling fluids will be allowed to evaporate in the drilling pits until the pits are dry.

C. Water produced during tests will be disposed of in the drilling pits.

D. Oil produced during tests will be stored in test tanks until sold.

E. Trash, waste paper, garbage and junk will be buried in a separate trash pit and covered with a minimum of 24 inches of dirt. All waste material will be contained to prevent scattering by the wind. Location of the trash pit is shown on Exhibit "B".

F. All trash and debris will be buried or removed from the well site within 30 days after completion of drilling and/or completion operations.

8. ANCILLARY FACILITIES:

A. None required.

Ξ

9. WELL SITE LAYOUT:

A. Exhibit "B" shows the relative location and dimensions of the well pad, mud pits, reserve pit, and trash pit, and the location of major rig components.

B. Cut and fill will be minor, but clearing and levelling of the well site will be necessary.

10. PLANS FOR RESTORATION OF THE SURFACE:

A. After completion of drilling and/or completion operations, all equipment and other material not needed for operations will be removed. Pits will be filled and the location will be cleaned of all trash and junk to leave the well site in an as aesthetically pleasing condition as possible.

B. Any unguarded pits containing fluids will be fenced until the pits are dry.

C. After abandonment, all equipment, trash and junk will be removed and the well site will be cleaned. Any special rehabilitation and/or special revegetation requirements of the surface management agency will be complied with and will be accomplished as rapidly as possible.

11. OTHER INFORMATION:

A. <u>Topography</u>: Texaco Producing Inc's. proposed location will be situated on a sandy undulating landform. Drainage is by sheetwash with drainage to the south. Elevation is approximately 3619 feet.

B. <u>Soil</u>: Top soil at the well site is a sandy loam and sandy clay deposits.

C. <u>Flora and Fauna</u>: The vegetative cover is moderate which includes weeds, range grasses and mesquite. Wildlife in the area is that typical of semi-arid desert land and includes coyotes, rabbits, rodents, reptiles, dove and quail.

D. <u>Ponds and Streams</u>: Laguna Catuna is approximately 10 miles North of the location.

E. <u>Residences and Other Structures</u>: There are no occupied dwellings or other structures within 3/4 mile of the well site.

F. <u>Archaeological, Historical, or other Cultural Sites</u>: None observed in the area.

G. Land Use: Grazing, oil and gas production, and wildlife habitat.

H. Surface Ownership: Federal.

12. OPERATOR'S REPRESENTATIVE:

W. B. Cade District Operations Manager Texaco Producing Inc. P. O. Box 782 Hobbs, New Mexico 88240 Office Phone: (505) 393-7191

13. CERTIFICATION:

I hereby certify that I, or persons under my direct supervision, have inspected the proposed drill site and access route; that I am familiar with the conditions which currently exist; that the statements made in this plan are, to the best of my knowledge, true and correct; and, that the work associated with the operations proposed herein will be performed by Texaco Producing Inc. and its contractors and sub-contractors in conformity with this plan and the terms and conditions under which it is approved. This statement is subject to the provisions of 18 U. S. C. 1001 for the filing of a false statement.

O. C. D. ARTESIA; OFFICE:

Texaco Producing Inc. P. O. Box 728 Hobbs, NM 88240

Gentlemen:

Your Application for Permit to Drill the Neff "13" Federal No. 3 well in the SWESEE sec. 13, T. 22 S., R. 31 E., Eddy County, New Mexico, lease NM-29233, to a depth of 8450 feet to test the Brushy Canyon formation in the oil-potash area, is hereby approved as amended by stipulations attached to the application.

One copy of the application is returned herewith. Please notify the Bureau of Land Management office checked on the attached special stipulation, in sufficient time for a representative to witness all cementing operations.

Approval of this application does not warrant or certify that the applicant holds legal or equitable title to those rights in the subject lease which would entitle the applicant to conduct operations therein.

Sincerely,

Francis R. Cherry, Jr. District Manager
