ABANDONMENT*

(Other)

(NOTE: Report results of multiple completion on Well
Completion or Recompletion Report and Log form.)

17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

Upon successful completion of proposed dual completion of Strawn and Morrow zones, request approval to commingle the production thru the existing production facilities at the surface location. Ownership under the single Federal lease is common, and royalty rates for both producing zones are identical.

Individual zones to be tested prior to commingling to establish production allocation. Said production allocation test to be conducted thereafter on a monthly basis.

Surface commingling subject to approval by NMOCD.
