In re: Oil Transferred from
James A to James E Lease

Gentlemen:

In February, 1990, approximately 725 barrels of oil will be transferred off the James A Lease (Cabin Lake Delaware) to the James E Lease (Cabin Lake Delaware) to Well No. 3 for testing purposes. A Form C-126 has been filed and is attached. We expect to both transfer and recover the 725 barrels in the month of February, 1990. If you need any additional information, please feel free to call.

Sincerely,

J. M. Hastings
Production Records Supervisor
